

## Prevention Measures Against Birds

Use the net properly to shield garbage from crows.

Cover the entire garbage pile with net.

Arrange garbage accordingly.

● Please put garbage in designated area.

● Abide by collection times and days.

- Putting garbage on top of net.
- Excessive amounts of garbage in bags.
- Food garbage is not properly drained.
- Leaving garbage bags open.

## Burning Garbage is Unlawful

- Incinerating garbage causes air pollution.
- Sparks from burning garbage can jump and cause other fires.
- Smoke and odor can be a nuisance for neighbors.

Violating this law will result in:

Maximum 5-year jail sentence,  
¥ 10,000,000 or both.

## Reducing Garbage and Global Warming

Garbage collecting along with the disposal process creates green house gases like CO<sub>2</sub>. However, most of these gases are produced from burning garbage.

We can do our part by **reducing the amount of garbage** that is collected and by **seperating garbage** properly.

## Garbage not Collected by the City

※ If you don't understand how to dispose of something, contact the City Hall Environmental Safety Division.

If you put these types of garbage in a regular garbage collection area, the city will put a sticker on it and it will not be collected.
